

## **Brownfields 2018 Assessment Grant Fact Sheet**

### **East Arkansas Planning and Development District, AR**

#### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment, and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

#### **Assessment Grants**

*\$200,000 for hazardous substances*

*\$100,000 for petroleum*

EPA has selected the East Arkansas Planning and Development District for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to conduct six Phase I and two Phase II environmental site assessments. Community-wide petroleum grant funds will be used to conduct four Phase I and one Phase II environmental site assessments. Grant funds of both types also will be used to update an inventory of brownfields, prioritize brownfield sites, prepare up to 12 cleanup plans, prepare six reuse plans, and support community outreach activities. Assessment activities will target 12 counties in eastern Arkansas.
